go big - moves 4x more air than standard 5-ft ceiling fans

MODEL 9
7-9ft Brushless DC Ceiling Fan

PRODUCT OF SINGAPORE

9FT FAN DIAMETER
Perfect for 4m to 8m ceiling heights

MINIMALIST DESIGN
Sleek and slim. Blends well into any space

ULTRA-EFFICIENT BRUSHLESS DC MOTOR
High energy efficiency with small motor size

LOW POWER CONSUMPTION
Cost <$51 to run for 24 hours at max speed

THIN-AEROFOIL BLADES
Low drag, ultra-efficient aerofoils

QUIET OPERATION
<40dBA. Quieter than most ambient environments

SLANTED CEILING COMPATIBILITY
Up to 45° sloping ceiling

AUTOMOTIVE GRADE PAINTWORK
Vibrant, long lasting colours

SUMMER AND WINTER MODES
Forward & reverse modes to circulate and destratify

LIGHTWEIGHT AND EASY TO INSTALL
25kg for full assembly

ROBUST CONSTRUCTION
Aluminium and steel construction
ADVANTAGES OF THE MODEL-9 BRUSHLESS DC (BLDC) MOTOR
1. Consumes significantly less power than most traditional fans
2. Long motor life expectancy
3. Ultra-silent motor operation
4. Compact, low profile motor for a minimalist design

WHY THE MODEL 9 BLDC CEILING FAN?
Model 9 is the perfect ceiling fan for any residential or commercial space. It is sleek and slim, incorporating a combination of advanced motor technologies and minimalistic design.

SUBSTANTIAL ENERGY SAVINGS ON YOUR AIR-CONDITIONING COSTS
Model-9 performs even better in an air-conditioned environment, allowing for up to 20% cost savings for your energy bill.
